

Repair and re-upholstery

Repair

In addition to upholstery production we also perform repairs. No matter if the seat upholstery belongs to a classic or more recent car model, we always make an effort to meet our customers' needs. When it comes to collection cars, it is usually important to preserve the original lines and for that purpose we rely on our trusted partners, who supply us with a wide range of raw materials.

Maintenance

Maintenance is essential for an extended durability of your car upholstery. In most cases the cost of a maintenance program is cheaper than a complete repair. Therefore, we always recommend our customers the most appropriate solution for each case.
